Experience

UI/UX Designer

Remote

2025 – Present

Client: Real Estate Rebate Team (realestaterebatesnewyork.com)

- Redesigned the client's website from scratch with a modern, responsive UI and improved visual consistency using design systems inspired by Next.js and Tailwind CSS frameworks.
- Planned and conducted UX research, including user interviews and usability testing, to gather insights and ensure an intuitive and engaging user experience.
- Created detailed design documentation and prototypes to guide the implementation of dynamic content and SEO-friendly structures

Projects

HomeSpace – Real Estate Website

[GitHub](#)

Designed and developed a responsive real estate website using HTML, CSS, JavaScript, and Bootstrap.

Implemented property listings, inquiry forms, and agent sections with smooth user navigation and modern UI components.

Integrated third-party libraries like AOS and Swiper.js for animations and image carousels to enhance user experience.
