Frontend Developer

Prayatanam-Bharati

Techstack-React Js,Tailwind CSS

- Paryatanam Bharati is a dynamic and user-friendly front-end application that serves as a comprehensive travel and tourism platform. It provides an intuitive interface for users to explore and book various travel packages, accommodations, and activities. The application includes detailed information on popular destinations, travel tips, and a personalized enquiry form for assistance. With a strong emphasis on usability and functionality, Paryatanam Bharati enhances the travel planning experience, making it efficient and accessible for all users.
