OBJECTIVE

Aspiring for a challenging role in a reputable organization to utilize my technical skills for growth of the company while fostering my own learning and development.

EDUCATION

B.Tech in Computer Science, Narula Institute Of Technology Expected 2025
Specialization in Artificial Intelligence and Machine Learning
SGPA: 8.48

Intermediate, Udai Pratap Public School 2019-2021
Percentage : 88.2%

High School, Udai Pratap Public School 2018-2019
Percentage : 92.8%

SKILLS

Programming	Python, SQL, OOPs
Database	MySQL
Soft Skill	Problem Solving, Quick Learning

INTERNSHIP

Data Analyst Intern Aug,2024-Nov,2024
Sprinter Software Solutions

- Contributed to the Gross Allocation Project, analyzing and processing large datasets to identify key insights and trends.
- Performed data cleaning, data visualization, and basic statistical analysis to ensure accuracy and quality of the data.

PROJECT

Weather Prediction using ML

- Built a weather prediction model using machine learning.
- Used Pandas, Scikit-Learn, and K-Nearest Neighbors (KNN) for data processing and prediction.
- Achieved high accuracy in forecasts.

Hospital Management System

(using HTML, CSS, SQL)

- An online hospital management system where you access all the steps that a hospital website should have.
- **Efficient Admin Control:** Manage users, schedules, and resources effortlessly.
- **Streamlined Doctor Operations:** Access patient records, manage appointments, and communicate securely.
