About Me

Information Technology undergraduate at IEST Shibpur with practical experience building web applications using React and JavaScript. Interested in frontend development opportunities where I can apply my knowledge and learn industry standard code.

Education

Indian Institute Of Engineering Science and Technology , Shibpur
BTech in Information Technology

*Aug 2023 – July 2027**

- CGPA: 9.06*
- **Coursework** : Data Structures and Algorithms , Digital Logic and Circuit Design , Discrete Mathematics and Graph theory , Signal and Systems , Computer Architecture , Computer Graphics , Formal Language and Automata theory , Object Oriented System Design

Aaryan International School , Uttam Nagar
completed Senior Secondary Education

June 2021 – May 2023

- Percentage : 88.88

Kendriya Vidyalaya Sec - 05 , Dwarka
completed Secondary Education

- Percentage : 93.6

Projects

KoinX - Financial Dashboard

[KoinX/](#)

- Built a responsive and theme-aware financial dashboard using mockAPI , mimicking real-world tax harvesting reports.
- Implemented table interactions, conditional rendering, responsive dark/light mode toggle accessible via menu icon on small screens as per Figma specs and clean UX using Tailwind and ShadCN.
- Tools Used: React, Vite , TailwindCSS , React - redux , Shadcn , mockAPI.io , Lucide , deployed on Vercel

KuchBhiBolo - Blogging Website

[KuchBhiBolo](#)

- Developed a secure, feature-rich blogging platform with authenticated user access. Implemented comprehensive CRUD functionality allowing users to create, edit, and delete posts. Integrated a third-party real-time text editor for enhanced content creation.
- Tools Used: Vite , React , TailwindCSS , Appwrite , React - redux , React Hook Form , TinyMCE , React-router , LDRS , deployed on Vercel

Health-O-Hub

[Health-O-Hub](#)

- Developed an website which curates delicious and healthy recipes on a single click
- Tools Used: HTML , TailwindCSS , Javascript , GeminiAPI , deployed on Vercel

Additional Development Projects

- Built several responsive front-end interfaces using React and CSS frameworks
- Explored state management solutions including Redux and Context API
- More projects available on my Github profile : [My Github Profile](#) 

Technologies

Languages: C , JavaScript

Technologies:

- **Frontend :** HTML , CSS , TailwindCSS , React , Redux Toolkit , React Hook Forms , Tiny MCE , React Router , Context API , JavaScript , shadCN
- **Backend :** Appwrite
- **Database :** Appwrite
- **Version Control :** Git , Github
- **Build Tools :** Vite

Interests

- Problem Solving: Enjoy LeetCode and math-based coding challenges
- Sports: Competitive table tennis player; also enjoy kabaddi
- Fitness: Regular bodybuilding and strength training
- Reading: Interested in philosophy and psychology (e.g., CBT)
- Music: Enjoy various genres, especially KK
