CAREER OBJECTIVE

To start my career in manual testing by utilizing my knowledge of software testing methodologies, attention to detail, and problem-solving skills to identify defects, improve product quality, and contribute to delivering reliable and user-friendly software solutions.

EDUCATIONAL CREDENTIALS:

- BCOM(HONOURS) from (City College of Commerce and Business Administration), Kolkata, West Bengal.
- (10Th Grade) Shree Sanatan Dharma Vidyalaya, Kolkata
- (12Th Grade) Shri Balkrishna Vithal Nath Vidyalaya, Kolkata

SOFTWARE MANUAL TESTING COURSE.

Completed Software Testing from Karmick Institute, Kolkata in 2024-25.

MANUAL TESTING:

- Extensive knowledge in Manual Testing Skills
- Good knowledge in Black Box Testing
- Good Knowledge in Smoke testing, Regression testing, Compatibility testing •
- Thorough knowledge on Adhoc testing, Acceptance testing,
- Hands on Experience in writing Test cases
- Very Good knowledge in Functional Testing, Integration Testing, System Testing.
- Very Good Knowledge on Defect life cycle
- Strong in Software Development Life Cycle (SDLC) and Testing Life Cycle (STLC).
- Knowledge in Test Plan, Test Case, Test Case Review Template, Traceability Matrix.
- Good understanding of Test case Review process.
- Preparing Requirement Traceability Matrix for Test cases.

TECHNICAL QUALIFICATION:

- Languages/scripts: Basics of Html, Css, Python.
- Operating Systems: Windows 10/11.
- Skills: Manual Testing, Web Testing, Agile – Methodology.

PROJECT:

PROJECT (AS A PART OF KARMICK INSTITUTE)

PROJECT TITTLE

Basic Website Manual Testing

DESCRIPTION:

Tested a small website to ensure all pages and features were working as expected.

KEY TASKS:

Reviewed the website requirements and created simple test cases.

Tested features like navigation, links, forms, and user login.

Found and documented bugs manually using Excel or a text document.

Re-tested after bug fixes to ensure everything worked properly

OUTCOME:

Identified and reported issues, contributing to a better user experience.
