Professional Summary

Experienced Angular and UI Developer with around 3 years of experience in developing responsive, user-friendly web applications. Proficient in Angular, TypeScript, JavaScript, HTML5, CSS3, and Bootstrap, with a strong understanding of REST APIs and UX principles. Skilled at creating modular, scalable solutions and optimizing application performance. Adept in agile environments and passionate about delivering clean, maintainable code. GCP-certified developer with additional experience in back-end technologies like ASP.NET MVC and MSSQL.

Skills

- **Front-End Development:** Angular, HTML5, CSS3, React, JavaScript, TypeScript, Bootstrap, Angular Material, WordPress, WIX, Tailwind CSS, Prime NG, Ionic.
- **Cloud Platforms:** Google Cloud Platform (GCP).
- **UI/UX Design:** Responsive Design, Figma.
- **Database:** MYSQL, MSSQL.
- **Back-End Development:** C#, OOPS, Rest-API, JSON, ASP.NET MVC.
- **Tools:** Postman, Git.

Professional Experience

Software Engineer [People Tech Group](#)

Hyderabad, India 01/2023 - Present

- Developed and maintained dynamic web applications using Angular, achieving a 20% increase in user engagement and a 15% reduction in bounce rates through improved UI design and functionality.
- Improved application performance by 30% through code optimization and implementing lazy loading techniques, resulting in faster user load times and enhanced user engagement metrics.
- Spearheaded the migration of legacy applications to Angular, reducing maintenance costs by 25% and streamlining the development process through the introduction of modular architecture.
- Executed automated testing using Jasmine and Karma, leading to a 40% reduction in post-deployment bugs and ensuring higher code reliability.
- Enhanced user satisfaction scores by 15% by integrating user feedback into the development process, leading to targeted improvements in application features and usability.
- Implemented front-end development best practices, resulting in a 30% improvement in application load times and a 25% increase in SEO rankings, enhancing overall site performance and visibility.
- Collaborated with cross-functional teams to gather requirements and deliver high-quality UI solutions, resulting in a 15% increase in project efficiency and improved stakeholder satisfaction.

Software Engineer Trainee [People Tech Group](#)

Hyderabad, India 05/2022 - 12/2022

- Designed and maintained reusable components and modules, reducing development time by 40% and improving code maintainability.
- Work with cross-functional teams, leading to a 30% improvement in requirement clarity and UI consistency.
- Optimized front-end and back-end code, enhancing application scalability and boosting performance efficiency by 30%, resulting in a smoother user experience.

Certifications

- GCP Associate Cloud Engineer (Expected completion: Oct-2024) - **GCP**
- NPTEL Automatic Control Certifications - **IIT Roorkee**
- Angular (Feb. 2023) - **Udemy**
- Web Development (Feb. 2023) - **Udemy**

Projects

PAC II

[Angular15](#), [TypeScript](#), [Html](#), [CSS](#), [Prime NG](#)

- Developed login authentication using Microsoft Azure for secure user access.
- Developed and integrated RESTful APIs to fetch and display dynamic data, ensuring seamless data flow between the front-end and back-end systems.
- Managed asynchronous data loading and implemented error handling strategies to enhance user experience and application reliability.
- Worked closely with backend developers to define API endpoints and data structures, ensuring alignment on data requirements and functionality.
- Optimized performance through code splitting and lazy loading techniques and Customized features based on client requirements, enhancing user experience.

Data Annotations

[Angular](#), [TypeScript](#), [Html5](#), [Css3](#), [Bootstrap](#), [Angular Material](#)

- Developed Authentication and Authorization features using JWT tokens and cookies to secure user login and sign-up processes, ensuring safe access to the system.
- Implemented role-based user access, ensuring that users had appropriate permissions based on their roles, improving security and access control in the application.
- Integrated real-time form validation to enhance data accuracy and user experience.

People Tech Website

[Angular15](#), [JavaScript](#), [TypeScript](#), [Html5](#), [CSS3](#), [WordPress](#), [Figma](#), [Java](#)

- Directed the development of the People Tech website, ensuring full responsiveness across all devices, including mobile, tablet, and desktop, in compliance with company standards.
- Designed and implemented a responsive front-end using Angular, optimizing user experience and ensuring cross-browser compatibility.
- Managed dynamic content pages (e.g., Blogs, Workshops, Insights) using WordPress. Integrated custom themes and features to meet client requirements, enhancing content flexibility and user engagement
- Conducted performance testing and optimization to improve load times and overall site performance, contributing to a better user experience.
