SUMMARY

Results-driven Front-End / Full-Stack Developer with 2+ years of experience building high-performance, scalable, and responsive web applications. Proficient in React.js, Next.js, TypeScript, and modern JavaScript (ES6+), with expertise in UI/UX design, SEO optimization, and mobile-first development. Skilled in RESTful API integration, Node.js, Express.js, Firebase, and MongoDB to deliver full-stack solutions. Adept at writing clean, maintainable code, optimizing performance, and collaborating in Agile teams to deliver impactful user experiences.

TECHNICAL SKILLS

Front-End: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, HTML5, CSS3, Ant Design, Redux, Angular.JS

Back-End: Node.js, Express.js, RESTful APIs, MySQL, MongoDB, Mongoose, JWT Authentication

Mobile: React Native

Other Tools & Technologies: Git, GitHub, Bitbucket, Postman, CI/CD (Vercel, Netlify), AWS (basic), UI/UX Optimization, SEO, Performance Tuning

EXPERIENCE

Web Developer (Freelance)

November 2024 – Present

Sportsutra Company | Radha solutions Company

Hyderabad, India

- Engineered and maintained the company website and Learn Hub educational platform using Next.js 15, Typescript, and Firebase, delivering responsive, SEO-optimized, and high-performance applications.
- Utilized AI-powered tools (Lovable.ai, Readdy.ai) to streamline UI/UX workflows, reducing frontend development time by 20% and accelerating project delivery.
- Optimized React components for scalability and cross-platform performance, achieving 30% faster load times and reducing technical debt.

Junior Software Engineer

January 2023 – August 2024

WorkRuit

Hyderabad, India

- Spearheaded end-to-end development of the Workruit job-matching platform using Next.js (frontend) and Node.js/Express.js (backend). Designed AI-driven matching algorithms, improving candidate–job relevance by 35% and reducing manual screening by 25%.
- Architected SEO-optimized, mobile-first interfaces with Next.js (SSR) and Tailwind CSS, increasing organic traffic by 20% and boosting session duration by 10%. Implemented structured data markup for enhanced visibility.
- Designed and deployed 12+ RESTful API endpoints, enabling seamless data flow between systems. Improved API response times by 30% through caching and payload optimization.

Web Developer Intern

August 2022 – January 2023

WorkRuit

Hyderabad, India

- Delivered 6+ live landing pages, optimized for SEO, mobile responsiveness, and performance, resulting in 25% faster load times.
- Collaborated with designers and stakeholders to launch 3+ key product features, improving user satisfaction and business alignment.

EDUCATION

Bachelor of Engineering

September 2018 – July 2022

ISL Engineering College

Hyderabad, India.

Civil engineering

INDIVIDUAL PROJECTS

Speak Score AI: [Link](#)

- Developed a full-stack AI-powered speech evaluation application using React.js (Vite) for the frontend and Python Flask with AssemblyAI API for transcription and natural language analysis.
- Implemented real-time feedback mechanisms on pace, clarity, and filler word usage, providing actionable insights that helped users enhance presentation delivery and audience engagement.
