OBJECTIVE

Motivated and detail-oriented software developer with a strong foundation in Java, Javascript, Html, Css, React. Passionate about developing efficient, scalable, and user-friendly applications. Eager to apply my knowledge of software development principles, problem-solving skills, and adaptability to contribute to innovative projects in a dynamic environment.

SKILLS

Web Development Technology

Html / Css / Javascript / React

Programming Language

Java / Node Js / Python

PROJECTS

Namaste Hotel

A full-stack web application inspired by Airbnb, built with Node.js, Express.js, MongoDB, EJS, HTML, CSS, and JavaScript. It allows users to list, book, and review hostels with features like secure authentication, property management, ratings & reviews, and an interactive map. Designed for a seamless user experience with a responsive interface and dynamic content rendering.
