PROFILE

Detail-oriented and highly motivated Informatics graduate with a Bachelor's degree from the Czech University of Life Sciences and the University of Mumbai. Possessing a robust foundation in data analysis, software development, and technical problem-solving, I have developed a diverse skill set that includes proficiency in Microsoft Office, AWS, Azure, SQL, and advanced data visualization techniques. My experience in software development and open-source programming has equipped me with the ability to leverage technology to drive innovation and improvement. I am passionate about applying my technical expertise and analytical skills to contribute effectively to a dynamic and forward-thinking organization, fostering growth and success in a collaborative environment.
