## PROJECTS

---

### Portfolio

- A modern, fast, and responsive portfolio built with Next.js to showcase my skills, projects, and experience as a **full stack web developer**.

### Learning Management System (LMS)

- Developed a **web-based learning platform** with course management, progress tracking, and **multi-user authentication** using **Laravel and MySQL**.
- Integrated **REST APIs** for seamless data management and scalability.

### Enterprise-Level IT Management System

- Built a **scalable marketplace** with **role-based access**, **secure authentication**, and **dynamic admin portal dashboards** using **Laravel**.
- Optimized **performance**, **database queries (Eloquent ORM)**, and **responsive UI** with **Bootstrap & jQuery**.

## EDUCATION

---

- Bachelor of Computer Applications
- Higher Secondary ( 69.7% )
- Secondary ( 68% )

## WORK EXPERIENCE

---

### Web Developer ( [DIGITYX](#) )

Nov 2024 - Present

- Develop, maintain, and optimize **Laravel web applications**, ensuring high performance and security.
- Troubleshoot and resolve **technical issues**, ensuring smooth functionality and user experience.

### Frontend Developer Intern ( [DIGITYX](#) )

May 2024 - Nov 2024

- Assisted in developing **responsive UI/UX** using **HTML, CSS, JavaScript, and Bootstrap**.
