

Job Summary:

We are looking for a creative and skilled **Next.js Designer** who combines frontend development expertise with strong design sensibility. The ideal candidate will work closely with UI/UX designers and developers to create engaging, high-performance web applications using Next.js.

Key Responsibilities:

- Design and implement responsive UI components using **Next.js, React, Tailwind CSS**, or other modern frameworks.
- Translate Figma or Adobe XD designs into high-quality, interactive web pages.
- Ensure pixel-perfect implementation of UI designs across devices and browsers.
- Collaborate with cross-functional teams including product managers, designers, and backend developers.
- Optimize applications for performance, accessibility, and SEO.
- Maintain reusable components and front-end libraries for future use.
- Keep up with trends in web design and frontend development.

Required Skills:

- Proficiency in **Next.js, React, JavaScript (ES6+)**, and **TypeScript**.
- Strong skills in **HTML5, CSS3, SASS, Tailwind CSS**, or other styling frameworks.
- Experience in converting **Figma/XD/Sketch** designs into responsive web components.
- Good understanding of **SEO principles, server-side rendering (SSR)**, and **static site generation (SSG)**.
- Familiarity with version control systems like **Git**.
